

## **POSITION PAPER**

**Committee:** - United Nations Human Rights Council

**Country:** - State of Palestine

**Agenda:** - Discussing the viability of a lasting post conflict resolution for the Gaza Strip

The State of Palestine is deeply troubled by the sustained humanitarian crisis in the Gaza Strip, where the situation has reached alarming levels. Palestine condemns the blockade imposed by the Israeli army on the Gaza Strip, severely restricting the flow of humanitarian aid and essential supplies. Ensuring the rights and dignity of Palestinian refugees, safeguarding the rights of Palestinians living under occupation, and addressing the impact of settlement expansion are central to our commitment to justice and international law.

The United Nations (UN) Response Policies to Israel-Ghaza war state that both the nations should work together to deliver a global response that leaves no-one behind; Reduce vulnerability to the ongoing conflict and to address the systematic inequalities exposed by the crisis.. The United Nations (UN) promotes three Pillars of Operation to fight the unprecedented massacres:

- A robust, coordinated health response for immediate healthcare needs.
- Adoption of policies for socio-economic, humanitarian, and human rights challenges.
- A Post-conflict recovery that Prioritizes rebuilding, promoting cohesion, fostering economic development for stability.

State of Palestine would like to combat the war-crimes. We highlight the urgent need for international attention and intervention to address the humanitarian crisis resulting from these grave violations of human rights and international law. Calling upon the international community to hold Israel accountable for its actions, ensuring that those responsible for such violations face justice through appropriate legal mechanisms. Appealing for immediate humanitarian assistance to alleviate the dire conditions faced by the affected population, including access to medical care, food, and shelter. In our pursuit of justice and a lasting resolution to the conflict.

The State of Palestine urges the international community to support diplomatic efforts for a peaceful negotiation process. This includes upholding the rights of Palestinians to self-determination, an end to the illegal occupation, and the establishment of:

- An independent and sovereign Palestinian state based on homeland before the migration of Jewish peoples, with Israel region being autonomous each being governed by their own ruling authorities.
- Together being governed by a Non partial organization having greater powers responsible for maintaining peace among both the authorities.
- A Post-conflict recovery and protection of civilians and there evacuation plans and condemning any action risking there life.
